

2025 Quarterfinal Assignments

Contest assignments for the 2025 quarterfinals

The following are the contest assignments for the 2025 International Speech Contest Quarterfinals. Assignments were created using a randomization formula in Excel.

Region quarterfinals was updated to quarterfinals beginning with the 2024-2025 program year. This change occurred because of region realignment that went into effect starting with the 2024-2025 program year, which resulted in the smallest region containing five (5) Districts, and the largest region containing 13 Districts.

Quarterfinals now include District winners randomly assigned to contests with no fewer than nine (9) and no more than 10 contestants in each to reduce the disparity in contest size caused by the region realignment.
