TOASTMASTERS INTERNATIONAL IS:

. . . a nonprofit, nonpartisan, nonsectarian educational organization which has helped more than three-quarter million men through its program of self-expression and self-improvement. There are now more than 3800 clubs in 50 countries and territories throughout the free world.

A Toastmasters club is an organized group providing its members with opportunities to improve their abilities to speak in public, conduct meetings and develop executive abilities. In congenial fellowship, ambitious men help each other through practice, mutual constructive criticism and the assumption of responsibilities within the organization.

Each club is a member of Toastmasters International. The club and its members receive services, supplies and continuing counsel from the World Headquarters.

THIS CLUB DIRECTORY is your guide to Toastmasters clubs throughout the world. We hope you will carry it with you whenever you travel. As a Toastmaster, you are always a welcome guest at any Toastmasters club.

Because many clubs find it necessary to change the time and place of their meetings after the directory has been published, we have asked clubs to provide a telephone number which may be called for exact information.

Clubs should list their time and place of meeting with their local chamber of commerce. This information should also be given to local newspapers if they carry a schedule of club meetings. Whenever a club changes its time and place of meeting, the chamber of commerce, newspapers and World Headquarters should be notified.

We hope this directory will introduce you to new friends and new experiences in Toastmasters.
