

What is Votapex?

Votapex by fd Network Pty Ltd is a web-based voting platform built by a small team of Toastmasters in Australia with the aim to make running Toastmasters District Council Meetings and District Executive Committee Meetings as easy and as fair as possible for everyone involved.

Why Votapex?

Minimal Administration: simply upload your District Council Members list into your portal and let our platform take care of the rest:

- **Calculate Quorum:** easy to read indicators show quorum status
- **Qualify Voters:** member and club paid status reviewed and maximum number of votes assigned. No need to manually check

Vote Confidence: combining validation of voters while maintaining anonymous responses.

Flexibility: manage your District Council Meeting and District Executive Committee meetings your way with several adjustable configuration features. With the click of a button, you can set up the meeting to be as formal or relaxed as you like, while maintaining confidence that the voting platform is doing the legwork behind the scenes to ensure compliance with rules set out in the Toastmasters International Governing Documents and parliamentary procedure.

Dynamic: Votapex is built by Toastmasters, for Toastmasters, and stays aligned with the latest policy and procedural updates from the Toastmasters International Board of Directors. The platform already automates credential reporting and quorum tracking, and—with minimal effort—can manage membership and club status changes. It is designed to remain flexible as the needs of Toastmasters evolve over time.

Compliance and privacy: As with other approved platforms, Votapex complies fully with Toastmasters and International privacy standards.

Cost and Features

Votapex is a flat rate of \$300 AUD per Toastmasters year (1st July -30th June). This includes:

- A training session for Vote Administrators to support portal setup
- Unlimited participants and questions
- Unlimited self-managed meetings
- Votapex tech support attendance for two District Council Meetings per year
